

# Cleantime Automatic Scrubbers - 70 Series

## 20", 24" & 28", 19 Gallon Automatics

The Cleantime Series sets a new standard for Productivity, Performance, Durability and Ease of Use.

### Productivity

The unique Central Weight System makes the Cleantime series the most maneuverable machine on the market. Add in the large battery and fluid capacity built into a very compact design and the Cleantime becomes the most productive automatic scrubber in its class.

### Central Weight System

The unique Central Weight System design balances the weight on the center of its axis, which allows the machine to move effortlessly.

### Performance

The Cleantime utilizes a unique self-leveling brush head designed to automatically adjust to provide excellent results on the most uneven surfaces. Couple this with its proprietary "ultra dry" squeegee system and there is no other scrubber that will provide the scrubbing and drying performance of the Cleantime.

### Spin-on/Spin-off Brush

As easy as flipping a switch. No hands needed. (20" Only)

### Durability

Durability is designed into the Cleantime machines, with a unique anti-foam system to protect the vacuum, floating head design to absorb impact and vibration and high-density polyethylene construction for long-term durability.

### Self Leveling System

Uniform scrubbing guaranteed by the spring-activated floating head, which adapts instantly to even the most irregular surfaces.

### Long Life Squeegee

Blades can be used in all four directions before requiring replacement.

### AFS Anti Foam System

The Anti Foam System uses the airflow in the tank to push the foam away from the vacuum inlet to eliminate the flooding of the vacuum.

### Unequaled Drying Performance

The heavy-duty squeegee system utilizes a unique proprietary squeegee material that is very durable. No other squeegee in the world can provide the drying performance of the Cleantime Series. Seeing the Cleantime dry a floor *without* the use of the vacuum will make you a believer.

### Impact Resistant Squeegee

The impact resistant squeegee can be replaced without the use of tools.

## Cleantime Automatic Scrubbers - 70 Series

### 20", 24" & 28", 19 Gallon Automatics

#### Ease of Use

##### Simple to Operate

Simple to use and easy to operate, all of the controls are right at your fingertips.

##### Solution Level Indicator

Easy for operator to monitor.

##### Auto Brush Shut-off

The brush will stop automatically when the drive is turned off.

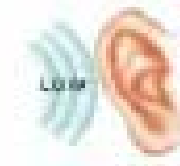

##### Low Noise Levels

The soundproofing system guarantees low noise levels.

##### Auto Solution Shut-off

The cleaning solution delivery stops automatically when the drive is turned off.
