- Genius' technology - just choose the preset cleaning mode and the SmartVac automatically adjusts to any surface and even cleans its own filter
- Highly maneuverable to clean in work stations and congested areas
- Picks up large debris without worries from paper clips and other damaging materials
- Digital hour meter to measure productivity
- Battery level indicator and battery protection system.
- Adjustable handle folds down for easy transportation and storage
- Return on investment over upright vacuums in only a few months

The Smart Vac Will Change Vacuuming and Sweeping Forever

The jobs that took hours now take minutes. Just turn it on and push and it does the rest. With a 24" cleaning path and no cord to slow it down, the SmartVac will clean as fast as you can go! From hard floors to carpet, the SmartVac knows what to do and will make all the necessary adjustments. It will weave around obstacles and zip into workstations to go where no wide-area vacuums would ever go. At the end of the cleaning job, just plug in the built-in charger and it will be ready to go for the next cleaning job. What could be easier? Throw away your old uprights and see a return on investment in as little as a few months. Check out the SmartVac and see why it is the smart choice.
