

MASTERCRAFT HEPA VACUUMS

- Our hazardous waste vacs with HEPA filtration are designed for the removal of mold, ceramic dust, aluminum, fiberglass and many other hazardous materials.
- Designed for use in clean rooms, hospitals and industrial plants or wherever air and dust pollutants exist.
- All our units are equipped with the HEPA filter system, consisting of a certified absolute filter, double layer intermediary micro filter and totally enclosed two ply disposable paper filter bag.
- The HEPA filter has a metal outer casing and micro-fibered glass paper filter media separated by corrugated aluminum sheeting that is encased in a protective steel screening.
- Vacuums are shipped with a HEPA filter, intermediary micro pre-filter (2/pk), 2ply disposable paper filterbags (5/pk) and 6 mil poly bags with OSHA markings.
- DAF dry models include 1 1/2" dry tool kit and WAF wet/dry models include the wet/dry tool kit.

One Year Limited Warranty on all Mastercraft Hepa Vacuums and Drum converters.

Wet Conversion Kit
